

Your Safety is Our Top Priority

Touchless Badge Scanning

All lead solutions provide badge scanning at a distance and allow the user to manually enter a badge ID to capture contact and demographic information.

SWAP App Mobile Application

Use on your own device and send marketing material digitally, eliminating the need for handouts.

Handheld RT2000 Badge Scanner or Tablet

Upon request, you may rent a table top or floor stand so visitors can scan their badges while maintaining a safe distance. *Please note electricity within 4 feet of your scanning device is required when using this option.*

Safety at the Lead Retrieval Service Desk

Mobile phone numbers of Maritz Global Events staff will be emailed and provided onsite to save you trips to the desk.

There will be markers on the floor leading to the desk to support safe distance.

Rented equipment will be packed in a clean bag, with a *Proof of Receipt* form. Detailed instructions will be provided once you're onsite.

Equipment Return

A collection receptacle will be at the Lead Retrieval Service Desk to return devices, chargers and easels. Your main contact will receive a *Proof of Return* email post show.

Need Further Assistance?

Contact the Maritz Global Events Lead Staff through the phone number provided. If your question/issue cannot be resolved over the phone, our staff person will safely visit your booth, solve the issue and wipe down your equipment.
